

Quite simply, for every desk we sell, we will plant a tree.

We are an environmentally aware and an environmentally sustainable company.

We are delighted to announce the launch of our Plant-a-Tree (PAT) initiative.
Quite simply, for every desk we sell, we will plant a tree.

We have developed an exciting partnership with Trees On The Land, where we will plant native Irish trees for every desk sold. We will fund the planting of a tree for every desk you buy.

Last year our supplier sold approximately, 10,000 desks and they are on target to sell even more this year! This will mean that more than 10,000 native Irish trees will be planted.

These trees will be planted at selected sites in and around Co. Cork and in February 2020, Staff members will be rolling up their sleeves to help plant the trees.

A word about our partner...

Trees on the Land is a cross-border initiative working to establish young native trees across the Republic of Ireland and Northern Ireland. Trees on the Land are a registered charity who work with farmers, smallholders, community groups, councils, schools, colleges and many other landowners to coordinate sites to accommodate trees. Trees are planted as small woodlands, coppices, orchards, hedgerows, shelterbelts, agroforestry projects, reforestation projects, and larger woodlands.

Forests play an important role in helping fight climate change – Ireland's forests and wood products removed 4.3 million tonnes of carbon dioxide from the atmosphere in 2015. Tackling climate change is in everybody's interest. We are an environmentally aware company which is proactive in its approach to safeguarding the environment and in playing its part in tackling climate change.
